MEDICAID INFORMATION RELEASE MA13-08

To: Developmental Disabilities Agency Providers, Targeted Service Coordinators, and Children's Service Coordinators

From: Paul J. Leary, Administrator
Division of Medicaid 

Subject: Developmental Disabilities Agency Reimbursement Changes

Allowable service coverage by a Developmental Disabilities Agency (DDA) will change effective July 1, 2013, based on approved IDAPA docket 16-0310-1203.

Providers who deliver DDA services to adults and/or children with developmental disabilities need to be aware that the following services are being eliminated for the DDA provider specialty:

DDA Only Services

- Intensive behavioral intervention and related evaluations.
- Developmental therapy (DT) for children 0-17 and related evaluations.
- DT for nursing facility participants and related evaluations.

Ancillary Services Provided by DDAs

- Psychiatric services and related evaluations.
- Psychotherapy and related evaluations.
- Pharmacological management.
- Speech therapy and related evaluations.
- Physical therapy and related evaluations.
- Occupational therapy and related evaluations.

Developmental therapy and intensive behavioral intervention services for children are being discontinued as a final step of transitioning to the children's redesigned system. DDA services will only be available to individuals who live in the community and will no longer be allowed for participants living in a skilled nursing facility.

Participants who require ancillary services may continue to access these services through mental health or independent therapy providers.

DDA providers who currently provide any of the above services to participants through their agency should cooperate with efforts to transition participants to new providers or services by June 30, 2013.

For dates of service on or after July 1, 2013, DDAs may bill the following codes:

Procedure Code	Modifier	Description	Allowed
Adult Services			
H2000		Developmental Therapy Evaluation (1 Unit = 15 Minutes)	\$4.53
